Network Concept

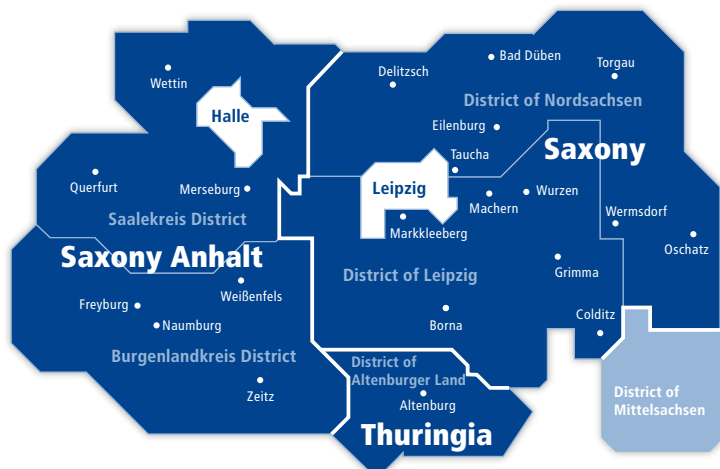

Dear Passenger,

whether it's the train, S-Bahn (city railway), tram or bus - the Mitteldeutsche Verkehrsverbund (MDV) combines the benefits of all twenty public transit companies in the transit network area into one unified transport system. The advantages are obvious: uniform tickets, a comprehensive service offering, coordinated schedules, joint information and services with the partner transport companies move passengers in the MDV forward faster!

— The transit network area of the MDV

In the MDV network you can use your MDV ticket throughout

    - no matter what company you bought your ticket or pass from and how many times you change.

We have compiled all the important information on the available MDV tickets for you in this brochure.

Staff at the service centres of our partner companies, as well as our own employees at our customer service phone, are available to answer questions and provide information. All contact details are summarized on the inside of the front cover.

We wish you a pleasant ride!

Your Mitteldeutscher Verkehrsverbund

— Fare zones

The transit network area of the MDV consists of 61 numbered fare zones. There are also local urban transport services in some of the region's cities and towns. Each fare zone has a corresponding price level.

An overview of our entire transit network area, including all fare zones and urban transport areas, is available on the foldout inside the back cover of this brochure or online at www.mdv.de.

— How do I find my fare?

The fare is derived from the number of fare zones you cover on your journey.

Whether you use train, S-Bahn, tram or bus, or several different modes of transport on your route, you only need one ticket!

| All prices in EUR | Fare zones | | |
|-----------------------------|------------|-------|-------|
| | 1 Zone MDV | 2 | 3 |
| Occasional travelers | | | |
| Single ticket | 1,90 | 3,40 | 4,90 |
| Single ticket child | 1,10 | 2,00 | 2,90 |
| 4-rides ticket | 7,20 | 12,90 | 18,60 |
| 4-rides ticket child | 4,40 | 8,00 | 11,60 |

1. Using the fare zone plan, count how many fare zones you will ride through on your chosen route.
2. Start and end zones are counted.
3. The number of fare zones determines the price level.
4. Based on the determined price level, you can now find your fare in the overview on the back of this brochure.

Even easier: our connection planner and fare information on www.mdv.de.

Network tickets are available in the service centres of the transport companies, at ticket machines, from personnel on regional transport vehicles (no Abo passes and semester tickets) as well as in selected retail shops.

Some tickets are available via easy.GO directly and conveniently on your smartphone (see page 5).

— Ticket purchase

Is the point of sale at the train station closed, or is the ticket machine not operational? Are you unable to acquire a ticket for other reasons? In this case report immediately to the service personnel that is available on the train for assistance and to purchase your ticket without additional fees.

— Ticket validation

Single tickets, 4-trip tickets and 24-hours tickets bought in advance must be validated at the ticket validation machine on the platform (train/S-Bahn) or inside the vehicle (tram/bus) before you start your journey.

Single tickets or 24-hours tickets bought from ticket machines in vehicles will already be validated, 4-trip tickets must be validated.

ATTENTION: Tickets from the ticket machines in the vehicles of HAVAG must be validated.

— easy.GO - The Mobile App for Bus and Train Travel

The free mobile app easy.GO provides you with an online timetable and connection planner. In addition, you can buy a cashless ticket and download it to your mobile phone - so it's always easy to get your train, suburban train, tram or bus ride in the MDV network area.
